DESIGNED FOR MODERN LIVING

SUMMER 2026

BDIUSA.COM

Driven by Design Since **1984.**

I have always appreciated the power of good design. Good design is more than how something looks—it is how it functions, how it performs, how it affects us far beyond simply its aesthetic value.

'Designing with purpose' is at the core of BDI. Before we develop any product, we first determine what problem we are trying to solve. Are we creating a workspace that will be more organized and efficient, allowing us to work smarter? Are we engineering a home theater system that will make movie night more special because the focus is on the film and not on the electronics? Are we creating new and innovative ways to integrate today's digital lifestyle into everyday life?

It is this purpose-driven philosophy at the heart of BDI that allows us to create beautifully practical furniture. Yes, we want to create memorable designs that look good, but they must serve a higher purpose. Our collections must have a timeless appeal while still adapting to the ever-changing needs of today's technology.

I hope that you enjoy reviewing this product catalog and discovering the ways that BDI furniture is designed to enhance the ways we work, live, and play.

Thank you.

Get to Know **BDI**

Since 1984, BDI has been dedicated to creating uniquely functional, streamlined, and meticulously executed furniture. Although our designs have earned dozens of awards and legions of fans, that doesn't mean we ever want to rest on our laurels.

We're known for 'sweating the details' and that attention to detail goes far beyond just the products that we create. It is evident in the way that we operate every day.

Whether its our strong inventory availability, best-in-class website, ongoing sales & marketing support, national promotions, world-class customer service, thoughtful packaging, or any of the elements that go into doing business with BDI, we want to make it a pleasure to work with us.

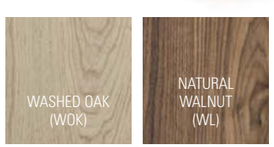
Weight	262 lbs | 119 kg



DIMMABLE LIGHTING TOUCHBAR

An easily-accessible sensor in the top of the headboard responds to your touch, dimming the light or turning it on or off at command.

NATURAL WOOD

The intelligent combination of hardwood solids and veneers ensures each bed is a unique work of nature.

SAVE THE WALLS

Wall levelers extend up to 2" | 5 cm, securing the headboard away from the wall.

CONTOURED EDGE

The bed frame's inner edge is beveled inward to provide a comfortable surface when making the bed.

THOUGHTFUL DESIGN

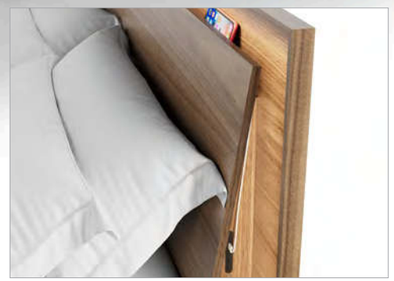
Rounded edges and recessed legs ensure late-night trips to the fridge don't result in bruised shins or stubbed toes.

CUSHIONED SUPPORT

The bed's inner platform features full-width solid pine slats enveloped in soft upholstery, making installation simple and keep vibration to a minimum.

FULLY CONFIGURABLE

The unique platform and bed frame can be placed at four heights, accommodating mattresses of any size. The platform can be removed, if needed, for use with an adjustable bed frame.



POWER UP

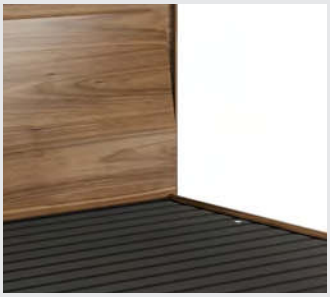
Two USB-C outlets are concealed behind either side of the headboard, providing a convenient charging spot for computers or rechargeable items.

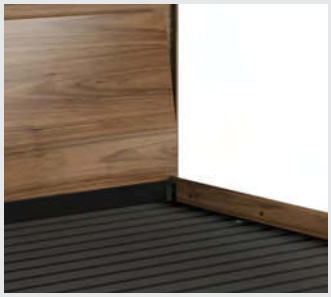
SO MANY WAYS TO MAKE YOUR BED

The bed's adjustable platform and frame allow KAVA to accommodate various mattress sizes, positioning the mattress at the user's preferred height. The full-width upholstered slatted platform provides sturdy, ventilated support for mattresses 8" to 16" tall–or more, or can be removed for use with an adjustable bed frame.

PLATFORM ADJUSTMENT

Switching the inner platform from the HIGH to LOW position drops the platform 3" for use with taller mattresses.





FRAME ADJUSTMENT

The bed's frame can be positioned HIGH or LOW by utilizing the included leg options, changing the entire frame height by 3".

COMFORT HEADREST

The wide, cushioned headrest adjusts in height, locking in ten different positions (3.5" | 9 cm range).

HIGH PERFORMANCE FABRIC

Rigorously tested, durable, and easy to clean, the chair's unique poly/nylon blend adds strength and resiliency.

ADJUSTABLE ARMRESTS

Armrests adjust in every direction—up/down, in/out, front/back—to provide tailored alignment and ergonomic support for arms and wrists.

ADJUSTABLE SEAT HEIGHT

The gentle pull of a lever adjusts the seat to the perfect height.

TILT TENSION CONTROL

Fine-tune the feel of your chair by adjusting the amount of force needed to recline.

FLOW-THROUGH COMFORT

Breathable fabric covers the ventilated backrest, evenly distributing weight and promoting airflow.

LUMBAR SUPPORT

Adjust placement on the spine to one of six positions to achieve the perfect balance of pressure and support.

ADJUSTABLE SEAT DEPTH

The seat glides forwards or backwards to ensure a custom fit, regardless of user's height.

SYNCHRO-TILT

The seat and back panel tilt in perfect harmony, keeping legs straight while reclining. The tilt feature locks into one of four recline positions.

COMFORT HEADREST
Cushioned headrest provides neck support, adjusting in height in unison with the back.

PERFORMANCE MESH
Durable mesh seat and back evenly distribute weight while allowing airflow, keeping you cool and comfortable.

ADJUSTABLE BACKREST
Adjusting to your height and build, the complete back assembly easily adjusts up or down with a push or pull.

LUMBAR SUPPORT
A cushioned lumbar panel provides lower back support for extended periods of sitting.

ADJUSTABLE ARMRESTS
Armrests adjust in every direction—up/down, in/out, front/back—to provide tailored alignment and ergonomic support for your arms and wrists.

ADJUSTABLE SEAT HEIGHT
A gentle pull on a lever adjusts the seat on its pneumatic support to achieve the perfect height.

TILT TENSION CONTROL
Fine-tune the feel of your chair by adjusting the amount of force needed to recline.

ADJUSTABLE SEAT DEPTH
The seat glides front or back to ensure a custom fit no matter your size. The seat's smoothly curved edges provide added leg comfort.

SYNCHRO-TILT
Seat and back panel tilt in perfect harmony, keeping legs straight while reclining. The tilt feature locks into one of four recline positions.

POLISHED ALUMINUM BASE
The durable aluminum base provides sturdy support and is resistant to scuffs and scratches. Pure-glide casters provide smooth motion on both carpeted or hard surfaces.

Meet the **Designers.**

Driven by design. It's not just something that we say, it's something that we live and breathe at all levels of our company. Meet the talented team of award-winning designers behind BDI's innovative collections.

Bill Becker

CEO AND DESIGN DIRECTOR

Bill's mission has always been to develop unique and innovative furniture that enhances the quality of life. As BDI's CEO and Design Director, he continues this commitment by leading the effort to create designs which have a classic modernism and timeless style.

Matthew Weatherly

ASSOCIATE DESIGN DIRECTOR

Matthew's design direction is heavily influenced by Danish modern style and inspired by soft minimalism. He studied Scandinavian design, architecture, and woodworking at the Royal Danish Academy of Fine Arts, and holds a degree in Industrial Design from Pratt Institute.

Jeff Bare

Jeff combines a thorough understanding of construction and design to create furniture that functions as well as it looks. With a playful yet modern approach, Jeff's eye focuses on the way in which a design is experienced. From conception to production, his understanding of material resources and manufacturing methods ensures that every design is thoughtfully engineered with attention to detail. Jeff studied Industrial Design at Philadelphia University.

Al Glass

Clean and understated, Al's designs are simply sophisticated. Using simple proportions to create clear, classic pieces, he adds detail to make his designs stand out above the crowd, often embellishing them with simple details inspired by his life at the beach.

Jason Guidry

With a passion for creating innovative designs that blur the line between form and function—and with an attention to detail that makes for a unique expression—Jason is constantly striving to create that perfect experience for the end user.

Louis A. Lara

Louis designs with a sculptor's eye for form and detail. His designs have an innate sense of proportion and grace. The simplicity of his styling transcends fads and momentary trends to have a timeless appeal. Always refined, Louis' designs have a sculptural simplicity that is not only beautiful but functional.

FINISHES

BDI's wood finishes are comprised of a combination of hardwoods and natural hardwood veneers. The beauty of wood lies in the infinite variations of grain, texture, and color that develop as a tree grows. As wood is a natural product, it is affected by weather, climate, soil, light, and growth patterns.

Variations in wood pattern and color are to be expected from one piece to the next, and will even vary from one panel to another. It is this organic characteristic of real wood that ensures that each design is a unique work of nature.
