MODERN MOOD

UNBOUND BY GEOGRAPHICAL DESIGN, MODERN MOOD PRESENTS ITSELF AS AN EVOLUTION OF DESIGN CHOICES, SPANNING A VARIETY OF DECADES AND DESIGN MOVEMENTS, WHILE MAINTAINING AN UNMISTAKABLY MODERN AESTHETIC THAT TRANSCENDS TIME. The 90-piece collection includes bedroom, dining room, home office, accent and occasional items characterized by substantive forms with soft architectural details. Elevated materials and brushed metal accents in a warm pewter finish are evident throughout the collection, including metal banding and edging as well as marble and glass accents. Crafted with flat cut quartered oak veneer with wire-brushed detailing, Modern Mood is presented in two finishes: Mink and Diamond. Delivering a dark, earthy brown with notes of black, Mink delivers a timeless aesthetic. A much lighter presentation is achieved with the crystal-like alabaster and pewter hues of the Diamond finish, delivering a soft sophistication.

An unmistakable modern aesthetic that transcends time.

DIAMOND FINISH: flat cut quartered oak veneers with wire-brush detailing in a light finish with crystal-like alabaster and pewter hues delivering a soft sophistication.

MINK FINISH: flat cut quartered oak veneers with wire-brush detailing in a dark, earthy brown with notes of black delivering a timeless aesthetic.

Quality

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.
