CHAPMAN

Welcome to the Chapman collection, a smaller-scaled, casual-contemporary whole home group. Artfully crafted to present a relaxed, casual style, the 55-piece collection features a curated mix of materials that combine to achieve an updated look -- inspired by downtown urban living.

Designed for consumers who may live in loft-style spaces or homes with open concept floorplans, pieces are smaller in scale, yet are thoughtfully designed to provide plenty of storage and exude a sophisticated style.

The Chapman collection includes bedroom, dining room, home office, occasional and accent pieces. Crafted with oak solids and veneers in a warm brown Sorrel finish, the group is characterized by its eclectic mix of materials including forged pewter, honed marble, textured hardware and shagreen accents. Several items are also featured in a Charred Black finish, which is achieved through Shou Sugi Ban, a Japanese technique that creates a look resembling burnt wood. Custom hardware, metal inlays and unique hand-hammered metal accents in a forged pewter finish add to the contemporary style.

With Chapman, Hooker Furniture has developed a collection that enables consumers to furnish their homes with a modern and contemporary look through pieces that were thoughtfully designed with both form and function in mind. We invite you to explore the beautifully styled Chapman collection.

Quality

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items in Cascade feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.
